SAFe for Teams Training Course with SAFe Practitioner Certification

During this two-day training course, attendees will build the skills needed to become a high-performing team member of an Agile Release Train (ART)—and learn how to collaborate effectively with other teams—by becoming a SAFe® 4 Practitioner (SP). Attendees will also gain an in-depth understanding of the ART, how it delivers value, and what they can do to effectively perform their role using Scrum, Kanban, and XP.

They will learn how to write stories and break down features, plan and execute iterations, and plan Program Increments. Finally, they'll learn about the continuous delivery pipeline and DevOps culture, how to effectively integrate with other teams in the program, and what it takes to continuously improve the train.

Attending the class prepares individuals to take the exam and become a certified SAFe® 4 Practitioner (SP). The price of the 2-day training course includes the cost of the certification exam and one year of membership to access the Scaled Agile Platform. Exam retakes are possible; but Scaled Agile Inc requires an additional fee for exam re-takes.

About Your Trainer

Dr. Winston Gonzalez is a certified SAFe Program Consultant (SPC) who leads the Training and Coaching Services for Zeenie Enterprises LLC (ZeLLCo). ZeLLCo is a small business providing Management and Technical Consulting Services in Annapolis, Maryland. Dr. Gonzalez trains attendees in courses like Leading SAFe and SAFe for Teams. He is authorized to enroll attendees and provide them with appropriate licensed training materials from Scaled Agile Inc (SAI). SAI issues all SAFe Certifications and all training materials, ScaledAgile website content, and SAFe images are Intellectual Property of SAI.

Learning Goals

To perform the role of a SAFe® Practitioner, attendees should be able to:

- ✓ Apply SAFe to scale Lean and Agile development in their enterprise
- ✓ Know their team and its role on the Agile Release Train
- ✓ Know all other teams on the train, their roles, and the dependencies between the teams

- ✓ Plan Iterations
- ✓ Execute Iterations and demonstrate value
- ✓ Plan Program Increments
- ✓ Integrate and work with other teams on the train

Topics Covered

- ✓ Introducing the Scaled Agile Framework (SAFe)
- ✓ Building an Agile Team
- ✓ Planning the Iteration
- ✓ Executing the Iteration
- ✓ Executing the Program Increment

What Attendees Get

The class registration includes:

- ✓ Attendee workbook
- ✓ Preparation and eligibility to take the SAFe® 4 Practitioner (SP) exam
- ✓ One-year membership to the SAFe Community Platform
- ✓ Course certificate of completion.

Attendees must attend both days of the course in order to qualify for the exam

Who will benefit?

The following individuals will benefit from this course:

- ✓ Team members who apply Lean and Agile at scale
- ✓ All members of an Agile Release Train preparing for launch

Prerequisites

All are welcome to attend the course, regardless of experience. However, the following prerequisites are highly recommended for those who intend to take the SAFe® Practitioner (SP) certification exam:

- ✓ Familiarity with Agile concepts and principles
- ✓ Awareness of Scrum, Kanban, and XP
- ✓ Working knowledge of software and hardware development processes

SAFe Certification Kit

Attendees who pass the certification exam will receive:

- ✓ SAFe Practitioner certificate
- ✓ A SAFe 4 Practitioner digital badge to promote your accomplishment online
- ✓ A one-year certified membership as a SAFe Practitioner, which includes access to the SP Community of Practice
- ✓ A SAFe Practitioner certification usage guide with SP certification marks
- ✓ Access to a variety of learning resources to support certified professionals during their SAFe journey
