## Leading SAFe Training Course with SAFe Agilist Certification

During this two-day course, attendees will gain the knowledge necessary to lead a Lean-Agile enterprise by leveraging the Scaled Agile Framework® (SAFe®), and its underlying principles derived from Lean, systems thinking, Agile development, product development flow, and DevOps. They will also learn and practice the skills for supporting and executing PI Planning events, and coordinating multiple Agile Release Trains (ARTs).

Attendees will gain an understanding of the Lean-Agile mindset, why it's so effective in today's adapt-or-die marketplace, and what it means to lead a Lean-Agile transformation. They'll also learn how to build and support Agile teams and programs, empower a Lean Portfolio, build a Continuous Delivery Pipeline and DevOps culture, and coordinate large solutions. They will develop a skillset that's in demand worldwide—and empower their enterprises to succeed in a disruptive marketplace—when they become a SAFe® 4 Agilist (SA).

Attending the class prepares individuals to take the exam and become a certified SAFe® Agilist (SA). The price of the 2-day training course includes the cost of the certification exam and one year of membership to access the Scaled Agile Platform. Exam retakes are possible; but Scaled Agile Inc requires an additional fee for exam re-takes.

### About Your Trainer

Dr. Winston Gonzalez is a certified SAFe Program Consultant (SPC) who leads the Training and Coaching Services for Zeenie Enterprises LLC (ZeLLCo). ZeLLCo is a small business providing Management and Technical Consulting Services in Annapolis, Maryland. Dr. Gonzalez trains attendees in courses like Leading SAFe and SAFe for Teams. He is authorized to enroll attendees and provide them with appropriate licensed training materials from Scaled Agile Inc (SAI). SAI issues all SAFe Certifications and all training materials, ScaledAgile website content, and SAFe images are Intellectual Property of SAI.
